

### Design Your Own Guitar!

Many rock musicians own unusual electric guitars. Guitars can be shaped like a rectangle, a star or an amoeba. They can be made of wood, plexiglass, and even marble and come in every color of the rainbow. If you could design a guitar, what would it look like? What shape and color would it be? Check out the examples shown here for inspiration!

*Bo Diddley's favorite "Cigar Box" guitar*

*Paul Stanley's KISS guitar, which matched the design of Stanley's makeup*
